

STAGE 2| PROBLEM / SOLUTION FIT

2a. Understand the Customer Jobs through Jobs-to-be-done

Job Statement
and Job Map

Frame the Job the customer has by defining the overarching Job Statement and the key steps the customer goes through.

Interviews based on
the Job Map

In a series of interviews, you will challenge your understanding of the Job Map and learn in detail how customers measure success.

Large-scale quantitative
survey covering all steps of
the Job Map

Now you will quantitatively validate each step in order to understand where your customers are struggling the most to get their needs met.

Job Journey
Navigator

Scrutinize the results to identify the important but underserved jobs. These represent your opportunities!

Customer Promise
Canvas

In this critical last JTBD stage, we translate (i.e. spin) the biggest opportunities into possible solutions with the help of the Customer Promise Canvas.
